July 2013

No. 11

55 Newsletters

The 55 vibration is praised in all scriptures and literature its ancient lore have known this number as “Annihilation and Ascension “. It represents Will Power and Genius. The ancient Greek warriors invoked success and painted Number 55 in their armors. This invoked powers to confer victory on them, when they fought battles with their enemies.

July 5th, 2013

New Discoveries Applied

In the recent weeks I have been taking a break from forecasting as some things have change my methods. In this kind of business it is an ever learning and researched business. If you can't forecast the exact date or price than that means it still leaves you room to grow. We all know what W.D Gann did back in 1909 with the wheat trade regarding his methods.

While what I have to say now in this newsletter will be short and I don't put up pretty charts. Everything is about the timing of the trade and the methods are still determined by the PIVOT POINTS. The new discoveries of which I applied come forth from understanding how time and vibration is set in resonance. Time & Space is a matrix where at certain points like and like gives causes to defining what vibrations are at work.

For subscribers of my newsletter my goal is to give 100 or more buy or sell signals mark on an exact date. The conclusion to this is to hit 85% of these trades whether intraday or end of day trading. The trades could come in commodities, stocks, indexes, or even currencies here. The purpose is to show clients a winning newsletter with unbeatable timing in the industry.

Now I am going to cut this short, so I can get working on other trades for all clients. The first trade will come **8/16/2013 end of day for a change of trend**. The second important trade will happen exactly on **9/19/2013 end of day bottom pivot**. We started updating the records of all trades from Issue No. 11 on the new method. A date earlier or later forecast can always come through, but they indicate where all the important pivots happen.

Remember that I don't know if these points connect together as in top to bottom or vice versa. I only know that they're the top or bottom and each date marks a change of trend. You already know what is unique that is when I say EXACT DATE, or otherwise I am wrong on the forecast. At times I will know if certain points connect together, but sometimes I just won't know.

1. 8/16/2013, has a negative factor in here so I will say that it comes out as a top. I also say it could come as a bottom, but regardless it is a change of trend.
2. 9/19/2013 is a positive factor and is indicated to be a bottom pivot. Both of these trades will be end of day on the S&P 500, Dow Jones 30, NASDAQ, but don't buy into a concentrated index like the Russell.

The average distance for each pivot has gone at least 7 days higher per indication. If there is any question email us at 55@themastersealunlock.com, and also happy July 4th that will be passing into the weekend.
